

New Hampshire Charters

Twenty-three New Hampshire charter schools were awarded grants from money that came from the federal charter schools program between 2006-2014. At this time, one of those charter schools (4%) is closed. We determined which schools were open by reviewing the list of New Hampshire charter schools that can be found [here](#).

\$498,000.00 was awarded to the charter school that later shut down. You can find the name of the school below.
